Work Experience

Software Developer

CCC Family Worship Center - Union, NJ

January 2020 to Present

Member of a team that developed an inventory lookup system that uses a web front end and a Web API backend to query a SQL Server database. The system takes input from the user and returns a list of sermon video's that match the search criteria. I worked on developing the Rest API that facilitated the conversation between the UI and the database.

Full Stack .Net Developer
